## WHAT MOTIVATES US...

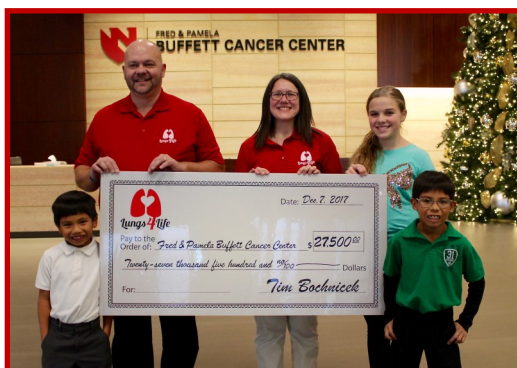

### LUNGS4LIFE

Leah was a 42-year-old, non-smoking, healthy, employed, married mother of three, when diagnosed with Stage IV lung cancer in December of 2013.

Leah's future, and many others like her, is literally in the hands of researchers. This is why we have chosen to fundraise and create awareness for lung cancer research through the Lungs4Life Foundation.

To date, Lungs4Life Foundation has donated over \$80,000 to our partner, UNMC's Fred & Pamela Buffett Cancer Center.

We are proud to keep the money we raise right here in Nebraska and *we would love for YOU to join our mission!*

## HOW YOU CAN HELP...

## WHERE THE MONEY GOES...

### FRED & PAMELA BUFFETT CANCER CENTER

The Fred & Pamela Buffett Cancer Center consists of a 10-story, 98-laboratory research tower named the Suzanne and Walter Scott Cancer Research Tower; an 8-story, 108-bed inpatient treatment center, and a multidisciplinary outpatient center named the C.L. Werner Cancer Hospital. With a comprehensive team of more than 250 cancer experts covering all specialties across the cancer spectrum, there is no need for people to travel outside the region for cancer care.

### NU FOUNDATION

The NU Foundation believes the value of a donation cannot be measured in mere dollars and cents; private gifts have the power to transform not only higher education, but lives and communities as well. They believe the relationship with the donor is as valuable as the gift, and philanthropy should be fulfilling, inspiring and fun. (Most of all, they believe their integrity, not their endowment, is their greatest asset.)

All monies raised are dedicated to the **Lungs4Life Fund** at the Nebraska University Foundation to be used at the Cancer Center.
